

AUS-MEAT Limited

Mission Statement

To add value to industry enterprises through quality management partnerships, and to enhance the value of those partnerships through a process of continual improvement.

To provide, manage and maintain the integrity of production and processing standards on behalf of the Australian meat and livestock industry.

To be recognized by all stakeholders as fulfilling a unique role in performing these functions in a truly integrated way across all industry sectors.

To manage and service the industry standards in a competent and effective manner and in so doing enhance the industry's image in the domestic and export market place.

To provide broader services to industry stakeholders in order to meet their commercial needs.
