Meat & Livestock Australia Ltd is a producer owned company established to represent, promote, protect and further the interests of beef, sheepmeat and goatmeat producers in both the marketing of meat and livestock and the development of industry based research and development activities. The overriding objective of the company is to add wealth to Australia's meat and livestock industries.

Programs activities are targeted at delivering improvements throughout the production and marketing chain from raising standards in farm management to lifting the demand for Australian beef, lamb, mutton and goatmeat in export markets. In addition, the company provides industry services to other sectors, such as meat processors and live animal exporters.

The Australian Meat Industry Council (AMIC) is the Peak Council that represents retailers, processors, exporters and smallgoods manufacturers in the post-farm-gate meat industry.

DESCRIPTION OF MEATS SECTION

For RFP, a full description which shall be in the order specified on the form ie; bone-in or boneless, meat type, cut or carcass.

HANDBOOK OF AUSTRALIAN MEAT (H.A.M) – Item Number (RFP)

The item number for the carcass, primal cut or bulk manufacturing pack specified in the ‘Handbook of Australian Meat’ or the ‘AUS-MEAT Register of Cuts & Items’ or the ‘AUS-MEAT Limited RFP Cut Code Reference – Meat Item Specification list’, plus the appropriate suffix code where the primal cut is further processed. For individual specifications, which vary slightly from the normal specification, the H.A.M number and suffix code shown in this booklet shall be shown most accurately describes the primal cut from which the cut is derived. Licensees in doubt as to the appropriate Handbook number should contact AUS-MEAT.

SUFFIX CODE

In order to identify items which have been prepared further than the primal cut or bulk manufacturing pack stage for which no cut code number is shown in this booklet, the following suffix codes are to be shown after the Handbook number of the item from which the prepared meat is derived (specific EU Quota codes also shown):

G	EU – GRAIN FED HIGH QUALITY BEEF (GF-HQB) When Beef for the EU has been certified as Grain Fed High Quality Beef (Quota EC 481 / 2012) and the Health Certificate and RFP have been endorsed accordingly, the suffix 'G' must follow the AUS-MEAT item number on the RFP return. Beef Cube Roll: 2240G
H	EU - HIGH QUALITY BEEF When Beef for the EU has been certified as High Quality Beef (Quota EC 593/2013) and the Health Certificate and RFP have been endorsed accordingly, the suffix 'H' must follow the AUS-MEAT item number on the RFP return. Beef Cube Roll: 2240H
P	PORTION CONTROL PACKS When a specific primal cut or manufacturing meat is prepared as an accurate weight and uniform quality portioned item, the letter 'P' is generally to be used after the number for the cut / item from which the portions are derived.. In certain cases, other suffixes are to be used (Z). Veal Tenderloin Steaks: 3330P Lamb Leg Steak: 4820P
V	VALUE ADDED MEAT Means a process such as marinating, flavouring, salting or inclusion of additives / ingredients by means such as massaging, tumbling or injection in order to enhance taste, tenderness or other sensory attributes such as colour or juiciness. The process generally does not change the form, appearance or texture of the product Beef Flap Meat Seasoned: 2206V Pork Spare Rib Marinated: 4160V
W	SPECIAL TRIM OR PREPARATION When a specific primal cut is specially trimmed or prepared and no trim option number is allocated, the letter 'W' is to follow the HAM item number which most clearly describes the cut. This category can include 'red' meat (denuded primal cuts), roasts, primal cuts divided in larger portions, or any other preparation not otherwise specified in other sections. Lamb Easy Carve Leg (Rolled Roast): 4821W Beef Cube Roll Lip On: 2244W
X	GROUND (MINCED) MEAT When a specific primal boneless cut is minced and this is identified in the trade description the letter 'X' is to follow the HAM item number. e.g. Beef Topside Mince: 2000X
Y	DICED MEAT When a specific primal boneless cut is diced and this is identified in the trade description the letter 'Y' is to follow the HAM item number. e.g. Beef Diced Topside: 2000Y Beef Diced Blade: 2300Y NOTE: The term Diced can be used as a generic description only e.g.: Diced Beef: 2570 Diced Mutton or Lamb: 5250 Diced Goatmeat: 5251 Diced Veal: 3965 Diced Pork: 4487
Z	STEAK, CHOPS, ETC When primal cuts or bulk meat have been prepared as non portion controlled items such as steak, chops, T-bone, etc. The letter 'Z' is to follow the HAM item number. e.g. Lamb Short Loin Chops: 4880Z Pork Leg Steak: 4020Z
